

SWACHH SURVEKSHAN

#Mera Shahar, Meri Pehchan 2024

REDUCE REUSE RECYCLE

Toolkit

Year	Theme	No. of cities
2024	Reduce Reuse Recycle	4800+
2023	Waste to Wealth	4500+
2022	People first	4354
2021	Integrated approach	4320
2020	Institutionalizing Swachhata	4242
2019	Sustaining Swachhata	4237
2018	Measuring outcomes	4203
2017	Measuring output	434
2016	Measuring physical progress	73

Key objectives of Swachh Survekshan

Annual urban sanitation survey conducted by MoHUA through a 3rd Party Assessment Agency

Objectives

1

Act as enabler for Mission acceleration in the cities

2

Foster healthy competition among cities to improve their performance on sanitation & waste management

3

Encourage large scale citizen participation and create awareness about importance of Swachhata

4

Improved sanitation services delivery by cities to its citizens

Emerged as the largest urban sanitation survey in the world

Key points to note for SS 2024

- 1** ULBs formed on or before 31st Dec'22 will be assessed in SS 2024.
- 2** ULBs formed after 31st Dec'22 may be included on formal request to MoHUA from the respective State/UT.
- 3** Always maintain complete and accurate data on Swachhatam Portal, as it will be used for conducting field assessment (discrepancies will attract –ve marking).
- 4** Always maintain updated contact details of the respective ULB representatives, on the Swachhatam Portal.

Ministry of Housing and Urban Affairs
Government of India

Service Level Progress parameters

SS 2023 (Total – 4830 marks)

SS 2024 (Total – 5705 marks)

1 **Regrouping of indicators** for clarity on weightages and focus areas

2 **Continued emphasis** on the following:

- Source segregation
- Waste collection
- Waste Processing
- Reuse of recycled/treated waste
- Legacy waste remediation
- Safaimitra Suraksha
- Citizens' feedback

3

Mission Life indicators related to Swachhata have been incorporated:

- Practice segregation of dry and wet waste at homes
- Do not discard waste in water bodies and in public spaces
- Donate old clothes and books
- Single Use Plastic Clean-up drives in cities and water bodies

4

Sanitation & Waste management in schools have been incorporated:

- Cleanliness in schools
- Availability of separate functional & clean toilets in schools for boys & girls
- Safe disposal of wet, dry and liquid waste generated by schools

Key features and inclusions

5 **‘Cleanliness in areas of tourist interest’** in cities has been added.

6 **‘SBM-U & NULM convergence’** indicator added for SHG participation.

7 **‘Yellow spots’** added as a new indicator to control ‘open urination’ in the cities.

SS 2024 - Assessment to be done in 4 phases

	Assessment timeline	Total - 5,705 marks	
Ph-1 Apr - Jun	Jul-Aug'23	400 Marks (7%)	On-Call Validation
Ph-2 Jul - Sep	Oct-Nov'23	570 Marks (10%)	On-Call Validation
Ph-3 Oct - Dec	Jan-Feb'24	1882 Marks (33%)	Processing facilities assessment
Ph-4 Jan - Mar	Apr-May'24*	2,853 Marks (50%)	Field assessment of all indicators

*After the General elections

Note: Ph-1 & 2 will be assessed on the basis of Service Level Progress indicators designed for SS-2023

Visible cleanliness (970 marks, 17%)

1	Visible cleanliness	Marks (970)
1.1	Sweeping in residential & commercial areas	60
1.2	Clean back lanes	60
1.3	No large storage bins (>100 litre size), no waste burning	20
1.4	No Garbage Vulnerable Points (GVP)	20
1.5	No 'Red spots' (spitting) in commercial & residential areas	60
1.6	No 'Yellow spots' (open urination) in commercial & residential areas	60
1.7	Cleanliness of storm water drains & nallahs	50
1.8	Cleanliness of water bodies	25
1.9	Aesthetics & city beautification	300
1.10	Cleanliness in Slums	100
1.11	Cleanliness of places of tourist interest, monuments and parks	140
1.12	Cleanliness in schools	75

1.1
-1.6

Cleaning of Public Areas

Marks
280

This parameter is to examine whether all the commercial areas and transportation hubs in the city are swept at least twice a day including festivals and Sundays (with mandatory night sweeping , elimination of GVPs), daily sweeping in all residential wards, and city is Bin-free city.

Scheme of Marking	Marks	Dept.
1.1 (a). Twice a day sweeping (including night sweeping) in all Public & commercial areas roads and streets, and other relevant areas – cleanliness maintained.	30	SWM
1.1 (b). Once a day sweeping in all residential areas – cleanliness maintained.	30	SWM
1.2. All back lanes of Commercial/Residential areas are clean - no water logging, drainage system not choked, no solid waste floating and walls properly maintained	60	SWM + Drainage
1.3. No storage bins (>100 Litre size) in all wards, all empty plots are free from C&D/solid waste dump and the waste is not burnt in any part of the city	20	SWM
1.4. No Garbage Vulnerable Points in ULB's jurisdiction	20	SWM
1.5. No 'Red Spots' (Spitting in Commercial/Residential areas) in ULB's Jurisdiction	60	SWM
1.6. No 'Yellow spots' (open urination) in commercial & residential areas	60	Drainage

Key definitions

- **Public & commercial areas** includes market areas (Vegetable/Fruit and Meat/Fish Markets including Mandi (APMC) and weekly market), railway stations, bus stations, other transport hubs, schools, colleges, hospitals, offices, religious areas, industrial areas, institutional areas, ULB managed parking areas, City parks & gardens), roads and streets, and other relevant areas.
- **ULBs are expected to maintain cleanliness in the back side** of the commercial buildings/office complexes, back side of houses, religious places or any building in the city which generally is not covered under daily cleaning and maintenance.
- Mechanized cleaning for 4-lane roads in ULBs with >10L population and water spray/sprinkling in cities <10L Population

1.3 Validation methodology

- Direct Observation and citizen validation in residential and commercial areas will be carried out by the Assessors

Residential Area

100% clean (zero waste spotted)

Not clean

Back lanes of the residential area

Clean (Back lanes of the residential area)

Back lanes not clean

Residential Area Bin

Twin Bin

Twin Bins are acceptable, even encouraged.

Not bin free

Secondary Storage bin such as these are discouraged

Photograph of clean street

Photograph of unclean street

GARBAGE VULNERABLE POINT

Garbage Vulnerable Points (GVP) are those areas where the garbage gets piled up because of the constant dumping of garbage by the local residents, travelers, or passerby.

Photograph of GVP near residential area

Photograph of GVP near commercial area

Red Spots

Red Spots are those areas where walls and roads of residential and commercial areas get stained red due to the constant spitting of Gutka/Paan/Tobacco by the local residents, travelers, or passerbys.

**1.7 &
1.8****No visible solid waste in and zero encroachment around -**

- 1. Storm Water Drains/Nallah ***
- 2. Water bodies*** (not limited to ponds, lakes, tanks, rivers etc.)

**Marks
75
(50+25)**

1.7. Storm Water Drains/Nallahs	Marks – 50	Dept.	1.8. Water Bodies	Marks – 25	Marks
100% Storm water drains/Nallah (Secondary/Tertiary) should have screens/filters at a suitable distance: <ul style="list-style-type: none"> • At points of discharge into other water-bodies • For cities with more than 10 Lakh population: Automated/Mechanical screens on Secondary Nallahs for collection and cleaning of waste 	10	Drainage	No solid waste floating/visible in 100% of area	5	Water Works
			No open dumpsites present near the water bodies	5	Water Works
No solid waste floating/visible in 100% of the areas	10	Drainage	Sweeping & Cleaning arrangements are in place & No Garbage Vulnerable Points(GVP) present near water bodies	5	Water Works + SWM
Boundary existing around all Storm water drains/Nallah should be well maintained	10	Drainage	Adequate twin-litterbins placed in every 50 meters of water bodies & Placement of Anti-littering message every 50 meters	5	Water Works + SWM
No encroachment around storm water drains/Nallah	10	Drainage	No sewage/septic tank effluent discharged/diposed	5	Drainage
No sewage/septic tank effluent discharged/diposed	10	Drainage			

Key definitions/notes

- **Storm water drains/nallahs** are designed to drain excess rain and ground water from impervious surfaces such as paved streets, car parks, parking lots, footpaths, sidewalks, and roofs. They vary in design from small residential dry wells to large municipal systems. ULBs are expected to ensure that storm water drains are not choked with solid waste for free flow of the water.
- **Water bodies** (not limited to ponds, lakes, tanks, rivers etc.) are an integral part of eco-system and need to be protected from waste with scheduled cleaning and maintenance work.
- There should be no encroachment around water bodies and storm water drains/nallahs
- Assessment of litter bin in every 50 meters of water body will be limited to the places where public pathway is there or accessible for the public.

1.4 Validation Methodology – Direct observation by the assessor.

STORM WATER DRAIN (SWD)

Storm Water Drains are closed conduits or open channels that receive runoff (rainwater) and convey the run-off (rainwater) to some point.

Photograph of SWD with no visible/floating solids

Photograph of SWD with visible/floating solids

Photograph screens on Storm Water Drains

NALLAHS

A nallah is a natural drain that exists due to the topography of the terrain.

Photograph of nallah with no visible/floating solids

Photograph of water body with visible/floating solids

1.9.a. Prioritizing aesthetics in making city swachh & beautiful

Prioritizing aesthetics in making city Swachh & Beautiful - beautification of old city areas, flyovers, public places -
(1) Wall paintings/murals, (2) Covered drainage (tertiary and secondary) system with screens (3)*GVP to Selfie Point, (4) Street Vendor Zones/hawkers zones are well maintained - zero litter and well organized (5) No hanging banners (6) Public walls are free from posters/bills (except government notices) (7) Treated used-water used in fountains at major intersections**

- * Any work where waste was used to create Artefacts or any other form of art work
- **at least 5 intersections (roundabouts) in >10 L population cities, at least 4 in 3-10 L population cities, at least 3 in 1-3 Lakh population cities, at least 2 in 50 K-1 Lakh population cities and at least 1 in upto 50K population cities

Methodology

- City need to claim the above progress with location through Swachhatam portal.
- Assessors will visit all of the above-mentioned areas/establishments
- Assessors will not interact with anyone. It will be purely their own assessment of the situation
- Assessors will click the pictures to support their observation/assessment

Note: Wall paintings/murals if not permitted or prohibited, by an official order, in any part or ward of the city, the same should be informed to the Ministry/ assessment agency with ward number(s) so that such ward(s) is/are kept out of the sampling exercise before on-field validation starts in the city.

Treated used-water used in fountains at major intersections: If there are no fountains at major intersections of the city, document supporting or an undertaking from the Municipal Commissioner/Executive Officer stating that 'treated wastewater is used to maintain the greenery/park at the intersections' to be uploaded, to claim marks.

Scheme of Marking	Max Marks	Dept.
	150	
Yes for all 7 above	150	
Yes for any 6 above	125	
Yes for any 5 above	100	
Yes for any 3 above	75	
Yes for any 2 above	50	
Yes for at least any 1 above	25	

Beautification Of Old City Areas, Flyovers, Public Places

Sr . No.	Parameter Name	Department
1	Wall paintings/murals	SWM + Drainage
2	Covered drainage (tertiary and secondary) system with screens	Drainage
3	GVP to Selfie Point	SWM + Garden + Building + Road
4	Street Vendor Zones/ hawkers zones are well maintained - zero litter and well organized	UCD + Estate + SWM
5	No hanging banners	Estate
6	Public walls are free from posters/bills (except government notices)	Estate
7	Treated used-water used in fountains at major intersections or greenery/park at the intersections	Drainage + Project + Garden

1.9.b. Prioritizing aesthetics in making city swachh & beautiful

Scheme of Marking	Max Marks 150	Dept.
All roads and footpaths - without potholes & broken paver blocks	30	Road
All construction areas (buildings) are covered to avoid dispersion of particulate matter	30	TD + TP
All construction/maintenance work in public roads/areas are demarcated and covered to avoid dispersion of particulate matter	30	TD + Road
At least one Commercial area is de-congested	40	Estate
100% Green road dividers: Plantation of specific types of species which are helpful in pollution control done in all road dividers of the city	20	Garden

Note:

- Roads having divider measuring 3-4 feet only should have greenery in the middle.
- Greenery along the road will also be considered
- ***Decongestion** for example movement of traffic controlled or regulated to give pedestrians more open space to walk/move around and hawkers/vendors's have re-orgnaized their shops to create more open spaces for pedestrians

Methodology

- Assessors will visit all of the above-mentioned areas
- Assessors will not interact with anyone. It will be purely their own assessment of the situation
- Assessors will click the pictures to support their observation/assessment

Assessment Area	Population			
	< 1 Lakh	1-3 Lakh	3-10 Lakh	>10 Lakh

1.10. Cleanliness in slums

Social Support Groups/Committees in 100% Slums (Informal Settlements) that is under the jurisdiction of ULB

Scheme of Marking	Max Marks 100	Dept.
<ul style="list-style-type: none"> 100% slums are covered with door to door (segregated) waste collection 	20	SWM
<ul style="list-style-type: none"> O&M of Community Toilet and Zero discharge of wastewater/faecal sludge in open drains 	20	Drainage
<ul style="list-style-type: none"> 100% houses in slums are maintained (exterior) 	20	TP+Building
<ul style="list-style-type: none"> *Social Support Group/Committee in each slum created/registered (minimum 10 members) and empowered to facilitate implementation of Government schemes and monitoring of uninterrupted services provided by the ULB 	20	UCD
<ul style="list-style-type: none"> To improve gender equality and inclusiveness, Informal Waste Pickers, Women, Transgenders and <i>Divyang</i> together are given minimum 33% representation in such Social Support Groups 	10	UCD + SWM
<ul style="list-style-type: none"> SHGs formed in each slum under 3R initiatives 	10	UCD

*Community Based Organizations (CBOs) and self-governin local community bodies (LCBs),which include Resider.. Welfare Associations (RWAs), Housing Societies, Self-Help Groups (SHGs), Special Interest Groups (SIGs), Common Interest Groups (CIGs), Jan Kalyan Samiti, Non-Government Organizations (NGOs) and Slum Development Associations (SDAs)

Methodology

- Assessors will randomly visit slums as per size of the sample
- Assessors may interact with citizens basis the progress claimed.
- Assessors will click the pictures to support their observation/assessment

1.11. Cleanliness of places of tourist interest, monuments and parks

Garden

All places of tourist interest, monuments and parks* to be cleaned-up. (*under the jurisdiction of the ULB) Services of NCC cadets/NYKS/NSS/citizens/citizens group etc. may be used for the same

Cities are expected to engage citizens/citizen groups etc. proactively to ensure all places of tourist interest, monuments and parks are clean & well maintained. All awareness campaigns/meetings, cleanliness drives related pictures to be uploaded on Swachh Survekshan-2024 portal and associated social media channel, Swachhatam Portal and Face Book page of the ULB by **31st December 2023**. (City name and ULB Code mandatory for entries)

Scheme of Marks for Cleanliness	Marks	Scheme of Marks for Maintenance	Marks
100% Monuments/Parks are clean	70	100% Monuments/Parks well maintained	70
75% Monuments/Parks are clean	60	75% Monuments/Parks well maintained	60
50% Monuments/Parks are clean	50	50% Monuments/Parks well maintained	50
25% Monuments/Parks are clean	40	25% Monuments/Parks well maintained	40

ULB's which do not have any tourist places/monuments/parks will need to submit a declaration mentioning the same.

Note

1. List of awareness campaign, showing coverage and date of campaign to be uploaded on SBM Portal, Swachhatam Portal and ULB's Facebook page
2. This list will also be used for on-field validation **50% Observation** and **50% Citizens**
3. Direct observation and random interaction with citizens will be conducted to ascertain the claim.

1.12**Cleanliness in schools**

शासनाधिकारी

**Marks
75****Scheme of Marking****Marks**

Is the school premises free from littering and visibly clean?

50

Does the school provide SEPARATE bins in each classroom, kitchen area, and at other appropriate toilets locations for collection of DRY waste and WET waste separately?

25

2. Segregation, Collection & Transportation (750 marks, 13%)

2	Collection & Transportation	Marks (750)
2.1	Door-to-door collection	300
2.2	Source segregation	300
2.3	C&T cost covered by user charges	150

2.1

%age of wards covered with 100% door-to-door waste collection**Marks
300**

(Coverage of wards means every unit of household/gates , commercial establishment and shops in the ward).
This parameter examines whether ULB has a system in place for door-to-door collection of waste.

Scheme of Marking	Marks	DEPT
Door-to-door collection in 100% Wards	300	SWM
Door-to-door collection in at least 90% Wards	200	SWM
Door-to-door collection in at least 70% Wards	150	SWM
Door-to-door collection in at least 50% Wards	100	SWM
Door-to-door collection in < 50% Wards	0	SWM

2.2

%age of Wards covered with 100% Segregation of Waste at source (wet, dry, sanitary & domestic hazardous)

**Marks
300**

(Coverage of wards means every unit of household/gates , commercial establishment and shops in the ward).
This parameter examines whether ULB has a system in place for door-to-door collection of waste.

Scheme of Marking	Marks	Dept.
Segregated Waste collected in at least 90% Wards	300	SWM
Segregated Waste collected in at least 80% Wards	200	SWM
Segregated Waste collected in at least 60% Wards	150	SWM
Segregated Waste collected in at least 40% Wards	50	SWM
Segregated Waste collected in < 40% Wards	0	SWM

2.1 and 2.2 Key definitions & notes

- **Wet waste** to be collected on daily basis.
- **ULBs may also opt for collection of dry waste on alternate days/twice or once in a week basis.**
- **100% waste generated is to be collected in wards covered under this indicator** excluding bulk waste generators and non-bulk waste generators practicing on-site processing.
- **Gate:** Point from where the waste collector collects waste. For independent houses, the door will be considered as a gate whereas in residential societies, generally there is a single point from where these collectors collect their waste.
- **Sanitary waste :** Menstrual waste and diapers.
- **Domestic Hazardous waste:** Discarded paint drums, pesticide cans, CFL bulbs, tube lights, expired medicines, broken mercury thermometers, used batteries, used needles and syringes and contaminated gauge, etc., generated at the household level – *which can be collected on a weekly basis.*
- **>1 Lakh population cities** advised to collect segregated waste separately from households, mandi, streets/commercial areas/litter bins, hotel/restaurants, parks/horticulture waste and religious places.

2.1 & 2.2 Validation methodology

- The data filled in Swachhatam MIS portal will be validated through Citizen Validation conducted in Residential and Commercial Areas in each ward on sampling basis.
- Questions related to Segregated Collection of waste and the frequency of collection by the ULBs will be asked to citizens and validated accordingly.
- On Field assessors will visit households/shops randomly and conduct the independent citizen validation.

2.3

What percentage of the **operational cost (Collection & Transportation)** of Solid Waste Management is covered by **ONLY USER CHARGES** (for SWM related services) collected directly or user charges collected through Property Tax/Water/Electricity Bill etc. (SWM sub head)?

Marks
150

Salary expenses to Daily wagers, contractual or outsourced staff through service providers(against vacant posts) will be added along with cost

Expenses related to sweeping of public/commercial areas and expenses related to processing of waste & disposal are **NOT** covered.

પ્રોપર્ટી
ટેક્ષ

To assess extent of cost recovery in solid waste management services

Note:

- City should either maintain a detailed statement or Chartered Accountant's certificate to support their claim.
- In addition to quarterly performance, performance can also be assessed for total revenue collected till 31st December 2022 Vs cumulative operational cost incurred till 31st Dec 2022 – best performance will be applied when giving marks in the Ph-1 and Ph-2

Scheme of Marking	Marks
At least 60% of the cost	150
At least 50%	120
At least 40%	90
At least 30%	50
<30%	0

3. Solid Waste Management (1705 marks, 30%)

3	Solid Waste Management	Marks (1705)
3.1	Wet waste processing capacity of the ULB	155
3.2	Wet waste processing percentage of the ULB	280
3.3	Dry waste processing capacity of the ULB	155
3.4	Dry waste processing percentage of the ULB	280
3.5	Treatment of Sanitary and DHW in the ULB	130
3.6	C&D Waste Management	120
3.7	Is the landfill in ULB a sanitary landfill	150
3.8	Percentage of waste sent to sanitary landfill	160
3.9	Ban on SUP & plastic waste processing	150
3.10	Onsite wet waste processing by Bulk Waste Generators (BWG)	100
3.11	Safe disposal of wet & dry waste in schools	25

3.1

Percentage of Wet waste **processing capacity** of **functional plants** (out of the total wet waste generated^{**})

Marks
155

The indicator would assess whether a city has adequate facility/infrastructure to process the wet waste collected. City will provide the actual waste collection figure where door to door collection is in place.

Processing capacity of functional plants	Marks	Dept
100%	155	SWM
At least 80%	125	SWM
At least 60%	75	SWM
< 60%	0	SWM

^{**} Bulk waste generators or non-bulk waste generators managing on-site processing of the wet waste are not included (except cities with <1L population)

Geo coordinates (GIS details) in terms of ULB boundaries, ward number, ward boundaries, landmark etc of all Wet Waste Processing Plants to be mapped and updated on SBM portal as per the prescribed details (to be given by MoHUA) to qualify for marks

3.2

Percentage of wet waste being processed out of total wet waste generated and finished products (output) further sold.

(ULBs are encouraged to engage Women/SHGs/Transgenders in waste processing facilities)

Marks
280
(220+60)

This indicator assesses the extent of **decentralized and centralized** processing of wet waste collected. The amount of wet waste being sent to the landfill should be minimized. *Records are maintained for quantity of wet waste received, processed, disposed at landfill and revenue generated by sale of finished products (from wet waste).* **Finished products consumed/absorbed by the ULB will be considered as revenue generated besides actual sale of the finished products.** The revenue (self- consumption) will be calculated on the basis of commercial rate that ULB charges for supplying/selling compost/methane.

Processing of Wet Waste		
Scheme of Marking	Marks	Dept
100%	220	SWM
At least 90%	160	SWM
At least 70%	120	SWM
At least 50%	75	SWM
< 50%	0	SWM

Monthly Sale of finished products		
Scheme of Marking	Marks	Dept
>75% finished product(s) sold/Consumed	60	SWM
>50% finished product(s) sold/consumed	30	SWM

3.1 & 3.2 Validation Methodology

- Direct Observation
- To ascertain the progress, the assessor will interact with the officials in the plant. The assessor will check the electricity bill and monitor other activities in the plant to ascertain the functionality of the plant.
- He will also check the output/sent to dumpsite (including process rejects) on the basis of the input received (10% variation acceptable)
- On the basis of observation and verification of log book and electricity bills Senior assessors at the back end will arrive at the efficiency level of the plant(s) and indicator wise marks will be given. The agency may further seek clarification from the ULB by asking documents maintained by the ULB.
- In case of sale of finished products /used by the horticulture or other departments, sale receipts required - free distribution is not encouraged (e.g. farmers/citizens)

WASTE TO COMPOSTING PLANTS

Composting is a process of controlled decomposition of the organic waste, typically in aerobic conditions, resulting in the production of stable humus-like product, i.e., compost

Composting Technologies:

- windrow composting
- aerated static pile composting
- in-vessel composting
- decentralised composting (bin and box composting)
- vermicomposting.

3.3

Whether **capacity** of **dry waste processing facility/facilities** in the city is matching with the total **dry waste generated in the city?**

Marks
155

The indicator would assess whether a city has adequate facility/infrastructure to process the total dry waste generated.

Processing capacity of functional plants	Marks	Dept
100%	155	SWM
At least 80%	125	SWM
At least 60%	75	SWM
< 60%	0	SWM

Geo coordinates (GIS details) in terms of ULB boundaries, ward number, ward boundaries, landmark etc of all Dry Waste Processing Plants to be mapped and updated on SBM portal as per the prescribed details (to be given by MoHUA) to qualify for marks

Linearity to Circularity

Marks
280

3.4

Dry waste being processed out of total dry waste generated (**excluding** sanitary and domestic hazardous waste) through MRF, RDF or Waste To Energy plants etc. (**ULBs are encouraged to engage Informal Waste Pickers/Women/SHGs/Transgenders in MRF Centres**)

This indicator assesses the extent of decentralized and centralized management of dry waste generated. Is the dry waste of the city being recycled or reused? Dry waste sold to cement plants, used for road construction and other use of non-recyclable dry waste should be explained. **ULBs need to ensure that in MRFs – (a) Dry Waste is further segregated (b) Recyclables are sold to recyclers or scrap dealers, and (c) Records are maintained for quantity of waste received, segregated, recycled/processed, sold, disposed at landfill and revenue generated by sale of recyclables (dry waste directly collected by scrap dealers or informal workers)**

Scheme of Marking	Marks	Dept
At least 95%	280	SWM
At least 90%	200	SWM
At least 70%	150	SWM
At least 50%	75	SWM
< 50%	0	

Note: Recyclables sold to be documented in terms of revenue generated and details of buyers for validation. **Non-recyclables** sent to the **cement factory** will also be considered under processing. Informal Waste Pickers, if available should be given first right to collect & sell recyclables – Receipts can be documented.

3.5

Percentage of total **sanitary and domestic hazardous waste (*menstrual waste and baby/adult diapers and others**)** generated is treated, either by ULB or through third party managing bio- medical waste Hazardous waste from Hospitals, Nursing homes/clinics/Labs etc. **not considered**. Cluster infrastructure within 50 km shall be considered.

**to be processed through incineration process*

***Discarded paint drums, pesticide cans, CFL bulbs, tube lights, expired medicines, broken mercury thermometers, used batteries, used needles and syringes and contaminated gauge, etc., generated at the household level – to be given to authorized recyclers*

3.3

Whether **capacity** of **dry waste processing facility/facilities** in the city is matching with the **total dry waste generated in the city?**

3.4

Dry waste being **processed** out of total dry waste generated (**excluding** sanitary and domestic hazardous waste) through MRF, RDF or Waste To Energy plants etc.

&

3.5

Percentage of total **sanitary** and **domestic hazardous waste** (**menstrual waste and baby/adult diapers and others***) generated is **treated**, either by ULB or through third party managing bio-medical waste. Hazardous waste from Hospitals, Nursing homes/clinics/Labs etc. **not considered**.

Methodology for Validation

**100%
Direct
Observation**

1. The assessor will visit all plant(s)/processing facilities updated in the MIS.
2. To ascertain the progress, the assessor will also interact with the officials in the plant
3. The assessor will ask for the electricity bill and see other activities in the plant to verify the functionality of the facility. The assessor will also see if any hazardous waste is dumped/stored within the facility – should be treated separately.
4. On the basis of observation and verification of log book and electricity bills Senior assessors at the back end will arrive at the efficiency level of the plant(s) and indicator wise marks will be given.

3.3, 3.4, 3.5 Validation Methodology

- Direct Observation
- To ascertain the progress, the assessor will interact with the officials in the plant. The assessor will check the electricity bill and monitor other activities in the plant to ascertain the functionality of the plant.
- He will also check the output/sent to dumpsite (including process rejects) on the basis of the input received (10% variation acceptable)
- On the basis of observation and verification of log book and electricity bills Senior assessors at the back end will arrive at the efficiency level of the plant(s) and indicator wise marks will be given. The agency may further seek clarification from the ULB by asking documents maintained by the ULB.
- In case of sale of finished products /used by the horticulture or other departments, sale receipts required - free distribution is not encouraged (e.g. farmers/citizens)

MATERIAL RECOVERY FACILITY (MRF)

A facility where non-combustible solid waste can be temporarily stored by the urban local body or any person authorized by the urban local body **to facilitate segregation, sorting and recovery of various components** of waste by informal sector of waste pickers or any other work force engaged for the purpose before the waste is delivered or taken up for its processing or disposal.

Material Recovery Facility (MRF)

Material Recovery Facility

Compartments for dry waste

Compartments for dry waste

Compartments for dry waste

RDF(REFUSED DERIVED FUEL) PLANTS

Segregated combustible fraction of solid waste other than chlorinated plastics in the form of **pellets or fluff produced by drying, shredding, dehydrating and compacting** combustible components of solid waste that can be **used as fuel**.

RDF

Waste collection & Segregation

RDF Briquette Machine

RDF

Waste Shredder

RDF Briquette

SLRM CENTRES

Solid Liquid Resource Management (SLRM)

WASTE TO ENERGY (WtE) PLANTS

Waste To Energy (WtE) refers to the process of generating energy in the form of heat or electricity from municipal solid waste.

WtE Plants

Waste storage in the plant

Conveyor belt

Dry waste segregation

SANITARY & DOMESTIC HAZARDOUS WASTE (DHW) PLANTS

- **Sanitary Waste:**
 - Wastes comprising of **used diapers, sanitary towels or napkins, tampons, condoms, incontinence sheets** and any other similar waste.
- **Domestic Hazardous Waste (DHW):**
 - Domestic hazardous waste comprises of any solid waste or a combination of solid wastes that **requires special handling and disposal** as it **harmful to human health and environment**.

E.g. Discarded paint drums, pesticide cans, CFL bulbs, tube lights, expired medicines, broken mercury thermometers, used batteries, used needles and syringes and contaminated gauge.

3.6 Validation

Methodology

The assessor will visit collections points and all plant(s) and processing facilities updated in the MIS.

- To ascertain the progress, the assessor will also interact with the officials in the plant
- The assessor will ask for the electricity bill and see other activities in the collection centre/ processing plant to verify the functionality of the facility.
- Assessor will also observe if C&D waste is kept segregated in 5 categories
- On the basis of observation and verification of log book/electricity bills Senior assessors at the back end will arrive at the efficiency level of the plant(s) and sub-indicator wise marks will be given.

C&D WASTE

Construction and Demolition Waste:

Cement and concrete, bricks, cement plaster, steel (from reinforced concrete, door or window frames, roofing support, railings of staircase, etc.), rubble, stone, timber or wood Minor components. pipes (GI, iron, plastic, panels (wooden, laminated), glazed tiles, glass panes, etc.

Ban on Single Use Plastic

Marks
150

Scheme of Marking	Marks
Ban notified	30
Ban notification enforced and fine collected	40
At least 1 processing facility set up for Plastic Waste processing (MRF, SLRM etc.)	80

Key definitions/notes

- Single-use plastics, or daily disposable plastics, are used only once before they are thrown away or recycled. These items include plastic bags, straws, coffee stirrers, plates, cups, glasses, spoons, Styrofoam used for hoardings etc.
- This indicator would assess the extent of enforcement for discouraging one time use 'Plastic' in the city.
- Considering the environmental degradation caused by one-time use plastics, cities should work towards discouraging its citizens from using single-use plastics.

1.5 Validation Methodology

- Assessors will visit residential and commercial areas and carry out random citizen validation and direct observation

Any plastic bags, straws, coffee stirrers, plates, cups, glasses, spoons, Styrofoam (Single Use Plastics or Daily disposable Plastics) being used in Residential or Commercial Areas.

Assessor will observe whether Single Use Plastics or Daily disposable Plastics are being used or not

SINGLE-USE ITEMS

					
PLASTIC BAGS	STIR STICKS	SIX-PACK RINGS	PLASTIC UTENSILS	SOME FOOD WARE	PLASTIC STRAWS

REUSABLE ALTERNATIVES

3.10

Bulk Waste Generators (i) doing onsite processing of wet waste generated, including kitchen and garden waste or organic waste or getting wet waste collected and processed by private parties authorized by ULB. (ii) Handing over **segregated dry waste to authorized waste pickers** or waste collectors.

**Marks
100**

- A BWG will be considered as one that generates more than 100 kg of total waste per day (or as defined by ULB/state) for more than 15 days a month
- Community Hall/Function Hall/Marriage Hall/Public gathering waste generators shall be considered as BWG if the holding capacity is more than 200 pax

Scheme of Marking	Marks	Dept
100%	100	SWM
At least 80%	80	SWM
At least 60%	60	SWM
<60%	0	SWM

- Note:**
1. ULBs in <1 lakh population cities are allowed to process the waste of Bulk Waste Generators provided all Bulk Waste Generators are identified and commercial rates are charged
 2. If city's population is >1 Lakh, ask BWGs for on-site processing or outsource processing to private operators

Geo coordinates (GIS details) in terms of ULB boundaries, ward number, ward boundaries, landmark etc of all Bulk Waste

Generators to be mapped and updated on SPW portal as per the prescribed details (to be given by MoHUA) to qualify for

3.10

Bulk Waste Generators (i) doing **onsite processing** of wet waste generated, including kitchen and garden waste or organic waste or getting wet waste collected and processed by private parties authorized by ULB. (ii) Handing over **segregated dry waste to authorized waste pickers** or waste collectors.

Methodology for Validation

**100%
Direct
Observation**

1. On-field assessor will randomly visit the housing societies/RWAs/vendors in wards claimed under on-site processing of wet waste – sample size will follow as per the population.
2. Question will be asked and personally observed if on-site processing being practiced
3. On the basis of on-field verification, **Independent Validation Matrix (IVM)** will be applied and final marks given). Final marks = Marks claimed – marks adjusted as per IVM

BULK WASTE GENERATOR (BWG) PROCESSING ON-SITE

As per Solid Waste Management Rules 2016, “**Bulk Waste Generator**” means and includes buildings occupied by the Central Government Departments or Undertakings, State Government Departments or Undertakings, Local Bodies, Public Sector Undertakings or Private Companies, Hospitals, Nursing Homes, Schools, Colleges, Universities, other Educational Institutions, Hostels, Hotels, Commercial Establishments, Markets, Places of Worship, Stadia and Sports Complexes etc having an **average waste generation rate exceeding 100 kg per day** (of all waste streams put together).

Organic waste composter

Bulk waste generator are those where,
Gathering ≥ 200 Pax, Waste generation ≥ 100 kg/day for more than 15 days a month

Wedding / Party hall

Commercial office

Educational Institute

Hotel

Restaurant

Hostel

Hospital, railway station, Airport, Sport complex, Club, shopping mall, etc.

y for
Validation**

1. On the basis of the list of the processing facilities/plants (STP/FSTP) updated by the ULB in the MIS, the assessor will visit all plants
2. To ascertain the progress, the assessor will also interact with the officials in the plant
3. The assessor will ask for the log-book capturing at least last 3 month's record and electricity bill to verify the functionality of the facility
4. The assessor will also check if the treated usedwater is being re-used as claimed.
5. On the basis of observation and verification of log book/electricity bills Senior assessors at the back-end will arrive at the efficiency level of the plant(s) and indicator wise marks will be given.

Water reuse generally refers to the process of using treated wastewater (reclaimed water) for beneficial purposes such as agricultural and landscape irrigation, industrial processes, non-potable urban applications (such as toilet flushing, street washing, and fire protection), groundwater recharge, recreation, and direct or undirected water supply

SEWAGE TREATMENT PLANT (STP) / FAECAL SLUDGE TREATMENT PLANT (FSTP)

Blackwater: Wastewater generated from **toilets**.

Grey water: Wastewater generated from **bathing, kitchen and all other household activities except toilets**.

Sewage: Combined grey and black water generated from household.

Faecal Sludge : The accumulated semi-solid or solid portion that settled at the bottom of the septic tank which comprises 20% - 50% of the total septic tank volume is termed as faecal sludge.

SEWAGE TREATMENT PLANT (STP)

TREATMENT TECHNOLOGIES USED

- a) Waste Stabilisation Ponds (WSP)
- b) Activated Sludge Process (ASP)**
- c) Extended Aeration Process (EAP)
- d) Sequencing Batch Reactor (SBR)**
- e) Moving Bed Biological Reactor (MBBR)**
- f) Fluidized Aerated Bed (FAB)
- g) Membrane Bioreactors (MBR)
- h) Up flow anaerobic sludge blanket (UASB)
- i) Phyto rid/Reedbed/Wetland Processes/DEWATS

FAECAL SLUDGE & SEPTAGE MGT. (FSSM)

Source: Water, Sanitation and Hygiene, BMGF, 2010.

FSSM Value Chain

Human waste is contained in an on-site system, possibly together with grey water. Waste is partially treated due to the time it is contained, and is known as faecal sludge or septage depending on the system used.

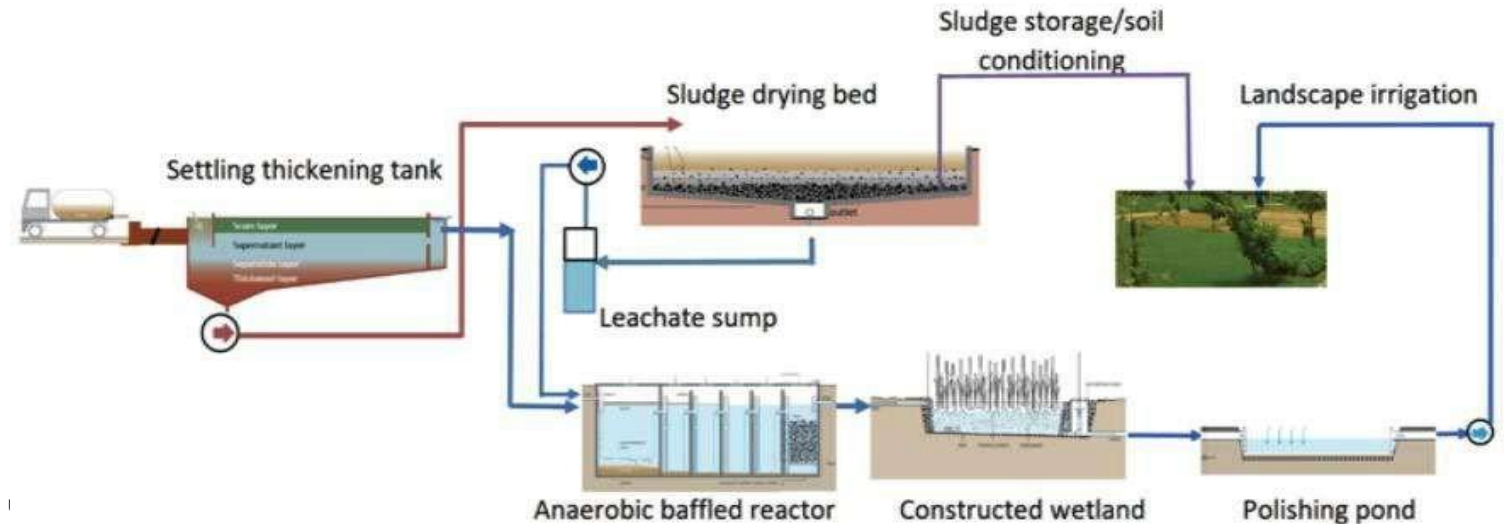

The system is emptied, typically by a desludging vehicle truck with a vacuum mechanism.

Faecal sludge or septage is transported safely in a closed vehicle truck.

Faecal sludge and or septage can be treated either at a Faecal Sludge Treatment Plant (FSTP), or co-treated with sewage at a Sewage Treatment Plant (STP).

The treated waste can now be safely reused or disposed.

Sanitation Response Unit

Emergency Response Sanitation Unit

Emergency Response Sanitation Unit/ Sanitation Response Unit (SRU)

Why Needed

- Government of India is committed to ensure that no person needs to enter any sewer or septic tank, unless absolutely inescapable in interest of greater public hygiene.
- More than 50% of households in Urban India dependent on **privately owned** septic tanks. (80-100% in smaller towns)
- Local Municipal Authorities do not take responsibility for construction standard/ periodic maintenance/ emergency repairs of these Private structures
- Private Septic tank owners are left to deal with unorganised private service providers
- Exploitation of workers from extreme vulnerable community – Poorly trained and Equipped

Emergency Response Sanitation Unit/ Sanitation Response Unit (SRU)

Why Needed

- The Private owner of a septic tank (if the designated “**employer**” under PEMSR Rules, 2013)- may not be in position to assume responsibilities listed under the Rules-
 - With regards to equipping, making safety arrangements and training of sewer men
- Private Owner can only be expected to make a **reasonable payment of fees.**
- There is a **need to combine “Responsibility with Authority”** and enforcement of the Act to stop exploitation of poor.

Objective

Professionally trained, motivated and equipped sewermen and necessary entry equipment needs to be made available at location of a Sewer or Septic Tank emergency within a reasonable timeframe .

Salient Features

An Organisation headed by a nominated **Responsible Sanitation Authority (RSA)**

Sanitation Response Units (SRU)/ ERSU Located in HQ towns of Each District

Scaled at 1 SRU per District - Responsible for Sanitation Emergencies in all ULBs and Panchayats within the district.

Additional SRU for need of each Municipal Corp. in District

Generally based on structure of the Fire Services/ Fire Brigade

- 5 digit toll free helpline RTN**
- Special Mobile Response System (SHRAVAN)**

Organisation of the Sanitation Response Unit

- On lines of Fire Services
- Approved by Empowered Group of Ministers
- Scaled at One per Distt + one for each MC in Distt

Composition

S. Staff No.	Officer/	Mechanism of Appointment	Nature of Appt.
1	Responsible Sanitation Authority (RSA)	Nomination through State Gazette Notification Disst Collector or Equivalent	Additional Role
2	Officer In-charge of ERSU	Through Municipal or Distt Office Order Executive Engineer or Eq AEE or Eq for ULBs < 2 Lakh	Additional Role
4	Duty/Entry Supervisor	Through Municipal or Distt Office Order Junior Engineer or Sanitary Inspector or Eq Ministerial	Full Time
5	Administrative Supervisor	Through Municipal or Distt Office Order	Full Time/Outsource
6	Call centre Attendant	Through Municipal or Distt Office Order	Additional Role
7	Sewer Entry Professionals (Sewer Commandos)	Through Municipal or Distt Office Order 7% of Municipal sewer men/ beldars or sewer men of parastatal/ PHED or Empanelled PSSO workmen	Additional Role

Through Municipal or Distt **Office Order**
Junior Engineer or Sanitary Inspector

5.8 Workforce Requirement - Marks Distribution

Workforce Requirement	If meeting Norm fully	If meeting \geq 50% Norm (Pro rata)	If meeting $<$ 50% of Norm
Sewermen	40	20	NIL
Sanitary Beldar	40	20	NIL
Trained and Notified Sewer Entry Professionals (SEPs)	20	10	NIL

SLP Documents for Indicator 3.5,3.6,3.7 and 3.8

1	Detailed list of equipment sheds in the ULB where Liquid waste Management related vehicles (Core and Special Equipment) Safety Gears etc are kept and maintained. (Name of the Area, Address, Landmark, Name, Number of equipment and Registration number of vehicles kept in the shed)
2	Vide. Notification/GO Number of RSA and SRU
3	Office Order Copy of RSA and SRU establishment
4	CPHEEO Calculation Sheet

Core Equipments & Special/other Equipments: List of documents to be submitted by the ULB for desktop assessment.

Photographs of distinct vehicle/equipment along with the registration number (wherever applicable) of all vehicle/equipment claimed by the ULB.

Procurement details of vehicle/equipment owned by the ULB.

1. Tender document of the procurement.
2. Purchase order/ Tax invoice.

If Outsourced, provide copy of agreement mentioning the details of the vehicle/equipment.

If the sewage management is carried out by Parastatal Body/ PHED/ State department then provide the documents of procurement details/outsourced details accordingly.

If special equipment shared on the cluster basis, then provide the declaration for that from the Responsible Sanitation Authority mentioning ULB code and ULB name.

Safety Gears: List of documents to be submitted by the ULB for desktop assessment.

Procurement details of all the Safety Gears claimed by the ULB.

Procurement details of Safety Gears owned by the ULB.

1. Tender document of the procurement.
2. Purchase order/ Tax invoice.

If Outsourced, provide copy of the agreement mentioning the details of the Safety Gears.

If the sewage management is carried out by Parastatal Body/ PHED/ State department then provide the documents of procurement details/outsourced details accordingly.

If Safety Gears shared on the cluster basis, then provide the declaration for that from the Responsible Sanitation Authority mentioning ULB code and ULB name.

Documents to be submitted by the ULB for evaluation: 3.6

- Notification for Ban on Manual hazardous entry(without safety gear)
- Notification for levying User Charges for desludging Services
- Notification mandating the compulsory Registration of all Private Sanitation Services Providers whose equipment/ manpower is being projected to meet therequirement under norms.
- Notification regarding imposing fines against persons / de-sludging operators dumping untreated faecal sludge in drains and / or open areas
- Notification regarding compliance of all Septic Tanks Constructed after 01 January 2021 are as per IS 2470 (Parts 1 & 2)
- ULB should submit the detailed statement maintained by it showing the total operational cost incurred and the revenue generated for providing de-sludging services/ Sewerage services.
- Please provide sample copies of proof of payment made at the treatment plant after off-loading the waste at the plant for treatment, by the de-sludging operator
- Please provide sample challans/fine receipts for dumping faecal sludge in drains/ open areas
- Please provide list of septic tanks which are geo-tagged. Also provide screen shots of the tracking and monitoring system in place.

Documents to be submitted by the ULB for evaluation: 3.7

- Photographs of the IEC campaigns conducted around availability of 24X7 Helpline 14420 to help citizens in all queries/complaints around cleaning of septic tanks and sewer lines (machine hole)/ stormwater drains or any otherservices provided by the ULB
- Photographs of the IEC campaigns conducted to disseminate the messages around scheduled cleaning (once in every 3 years) of septic tanks?
- Photographs of the IEC campaigns to disseminate the messages around penal actions for non-compliance under ‘The Prohibition of Employment as Manual Scavengers and their Rehabilitation Act (PEMSRA) 2013’
- Photographs of the IEC campaigns to disseminate the messages around engagement of ONLY licensed operators in all wards and 100% De-sludging Vehicles carrying IEC messages.

Documents to be submitted by the ULB for evaluation 3.8

- Photographs of the sanitary workers (involved in liquid waste management) working using the PPE kits provide to them
- List of the sanitary workers (involved in liquid waste management) who have been awarded with monthly recognition in the months of November, December and January (Phase 3)
- Document specifying the schemes that the sanitary workers have been linked to and the number of the sanitary workers (involved in liquid waste management) enrolled with each scheme.
- Photographs of 30% of all Sewermen and Sanitary Beldars (In-house/Private Operator supplied workforce) who have been provided a certified training on safety measures and legal norms, in past 12 Months, related to
 - Occupational Health and Safety
 - Mechanized cleaning of septic tanks, sewer lines, stormwater drains and machine holes
 - Prohibition of Employment as Manual Scavengers and their Rehabilitation Act, 2013.
- Document with the list of the Sewer Entry Personnel who have been given the minimum 10% monthly hazardous allowance with salary or risk allowance. The details like Name, Phone Number, and amount provided in the last three months should be provided.

Validation Methodology

Direct Observation

EQUIPMENT SHED/VEHICLE DEPOT

A location where vehicles/equipments used by the ULB for sewer/septic tank cleaning would be available/parked.

Assessor will Visit Equipment sheds of the ULB and assess the availability of following Vehicles, equipment

HydroVac Machine

HydroVac is a combination of **suction** and high-pressure **jetting** machine used for cleaning of sewer lines.

Grabber/Desilter (Machine Hole Dredger)

It consists of a **grab bucket** on a **wire rope**, which is lowered into the manhole in an open condition with the help of a crane and pulley. On reaching the bottom of the manhole, the segments are closed, and the accumulated silt is picked up

Desludging Vehicle

Septic tanks are required to be periodically **desludged (cleaned)** using vacuum loaders with a blow back arrangement (**suction**) to ensure complete evacuation of the faecal matter from the septic tanks.

Safety

Safety Gear for entering into manhole/septic tank to avoid hazards of gases and ensure safety of life

Gas Monitor

Blower with Air Compressor

Safety Body Harness

Airline Breathing Apparatus

Breathing Apparatus

Safety Tripod Set

Nylon Rope Ladder

Full Body Wader Suit

Gas Mask

Sewer Inspection Camera Apparatus

Used for inspection of sewer lines for assessing the condition of sewer and planning its cleaning.

Hydro Jetting

- Directs high velocities of water against pipe walls.
- Removes debris and grease build-up, clears blockages, and cuts roots within small diameter pipes.

Power Bucket Machine

Jaws of the power bucket machine open and scrape off the material and deposit it in the bucket. It Partially removes large deposits of silt, sand, gravel, and some types of solid waste

Hydraulic Sewer Root Cutter

Sewer Root Cutters quickly cut and clear roots and debris from sewer lines. These cutters are worked back and forth in the pipe until the obstruction is cleared.

Other Special Machine

Bandicoot Robot

5.9 Eco-System Parameters -

180 Marks

Drainage

Scheme of Marks		Max Marks
(a) Notifications		30
1.	Ban on Manual hazardous entry (without safety gear)	5
2.	User Charges for providing at least the O&M for sewerage and septic tank desludging Services	5
3.	Compulsory Registration by appropriate SRU of all Private Sanitation Services Providers* (whose equipment/ manpower is being engaged to make-up the requirement under norms by the ULB or Cluster)	5
4.	Whether ULB has notified fines against persons / de-sludging operators dumping untreated faecal sludge in drains and / or open areas	5
5.	All Septic Tanks Constructed after 01 January 2021 are as per IS 2470 (Parts 1 & 2)	5
6.	Is there a designated STP/FSTP/area identified and notified for disposal of faecal sludge ?	5

180 Marks

Drainage

Scheme of Marks		Max Marks
(b) Enforcement		80
1	Manual hazardous entry (without safety gear) banned in the city – Enforced 100%	16
2	More than 75% operational cost in providing sewerage and septic tank de-sludging services recovered from user charges – direct or as part of Utility bill.	16
3	Private Sanitation Services Providers are registered* (10 vehicles/ 20 Workers)	16
4	Fines being collected from persons dumping faecal sludge in drains/ open areas	16
5	Septic tank systems being construction as per provision of IS 2470	16
(c)	Whether Zero incident of Sanitation Related Fatality in the ULB during past 12 Calendar months (Yes/No)	20
(d)	Greater than 80% complaints registered through 14420 Helpline have been resolved satisfactorily (Pro-rata marks down to 50% of objective)	20
(e)	Whether >50% Septic tanks are geo-tagged for scheduled cleaning? (Prorata marks down to 50% of objective)	40

5.10 Citizen Empowerment Measures (IEC)- 80 Marks

Drainage

	Scheme of Marking	Max Marks
(a)	IEC messages around availability of 24X7 Helpline 14420 to help citizens in all queries/complaints around cleaning of septic tanks and sewer lines (manhole)/ stormwater drains or any other services provided by the ULB. The helpline should also address Safaimitra's grievances	20
(b)	IEC messages around scheduled cleaning (once in every 3 years) of septic tanks	20
(c)	IEC messages around penal actions for non-compliance under 'The Prohibition of Employment as Manual Scavengers and their Rehabilitation Act (PEMSRA) 2013'	20
(d)	IEC messages around engagement of ONLY empanelled operators in all wards	20

100% Sanitation Vehicles (Municipal, Private enrolled and parastatal/ State Department to carry these IEC messages

5.11 Mechanical cleaning – Soft Measures

(CB, Safety and Welfare)- 170 Marks

Drainage

	Scheme of Marking	Marks
(a)	Personal Protection Equipment (PPE) released to 100% Sanitation Workers engaged in liquid waste management – including new uniform as advised by MoHUA,	20
(b)	Monthly recognition being given to best performing workers (Male and Female separately where > 10 work	20
(c)	Whether all Enumerated Skilled Sewer Entry Professionals are given minimum additional 10% monthly hazardous allowance with monthly salary or a lumpsum Risk Grant for each confined space entry.	20
(d)	All semi skilled sewer men and beldars (on municipal rolls) have been facilitated to link with at least three eligible government welfare schemes e.g. Ayushman Bharat, Life/Accident Insurance, Education, providing Ration Cards for subsidized food grain etc. (Additional: Quarterly health Check-up is mandatory)	20
(e)	All semi skilled sewer men and beldars (on municipal rolls) as well as registered erstwhile manual scavengers enumerated by MoSJE, have been provided with livelihood opportunities – e.g. employment as sewer men/ beldars, engagement as CT/PT caretakers or supported entrepreneurship model through access to subsidized loan (Loan Mela) and assured engagement of their equipment.	30
(f)	Whether 30% of all Sewer men and Sanitary Beldars (In-house/Private Operator supplied workforce) have gone through a certified training on safety measures and legal norms, in past 12 Months, related to - <ul style="list-style-type: none"> ▪ Occupational Health and Safety • Mechanized cleaning of septic tanks, sewer lines, stormwater drains and machine holes • Prohibition of Employment as Manual Scavengers and their Rehabilitation Act, 2013. Record maintained for all trainings conducted and attended digitally linked with SBM Portal	36 4
(g)	Digital record being maintained of all Sewer men and Sanitary Beldar including private engaged personnel – Name, Address, Contact Numbers, Gender, any special need etc.	20

6. Nudge indicators (805 marks, 14%)

6	Nudge elements	Marks (805)
6.1	1 year of RRR center operations	80
6.2	Waste to wonder park	100
6.3	Zero waste events	90
6.4	Atmanirbhar ward	60
6.5	Promoting youth participation - Swachh Tulip	75
6.6	Innovation & Best practices	75
6.7	NULM - SBMU convergence	125
6.8	Benefits extended to workers	130
6.9	Training/workshops/seminars/peer visits	70

6.1**1 year of RRR center operations****Maximum
score: 80**

S. No.	Indicator	Marks
1	Awareness in citizens about the RRR center in their ULB	20
2	Is there a regular collection mechanism for sourcing items in the RRR center	20
3	Does the RRR center have segregation mechanism for the items being collected	20
4	Does the RRR center have forward linkages established for disposal, reuse, recycling, repair of items collected	20

6.1 Validation Methodology

- The complete address along with geolocation of the permanent RRR center to be uploaded on Swachhatam Portal.
- Direct observation of the RRR center in the ULB by the Assessor.
- Citizen validation by the Assessor about awareness regarding RRR centers.

6.2

Waste to Wonder Park: ULBs to develop 'waste to wonder' park and/or installation of 'waste to art' sculptures

SWM + GARDEN

**Marks
100**

Scheme of Marking

Marks

At least one park developed as 'Waste to Wonder' park or 'waste to art' sculptures installed in at least one location within the ULB and geotagged picture uploaded on the Swachhatam Portal (IEC module)

100

**SWM +
GARDEN**

6.2 Validation Methodology

- In ULBs/Wards/Areas where there is lack of space and/or prohibition orders for constructing a park cities can install sculptures from waste material at any location within the ULB
- Direct observation by the Assessor.
- The address along with geotagged picture of Waste to Wonder park or Waste to Wonder sculpture to be uploaded on Swachhatam Portal.

6.3

Zero Waste Events/Weddings/Social or Religious Functions : City/citizen is/are expected to manage **at least ONE Zero Waste Functions in each month** between **April 2023-May 2024** with zero waste coming out of the Venue.

**Marks
90**

Note: All events should be conducted as per the **SOP for zero waste event available on the Swachhatam Portal**

Scheme of Marking	Marks
At least one Government program conducted as zero waste event	20
At least one Social/Religious program conducted as zero waste event	20
At least one Social Campaign conducted as zero waste event	20
At least one awareness campaign regarding zero waste events in the ULB	30

SWM

Note:
 Zero Waste Events/Functions claim to be documented with pictures and other details to justify zero waste event
 *Also applicable for functions held in premises owned by ULB's

Validation Methodology-Document validation by the Assessor

6.4 Atmanirbhar Ward

SWM

Marks
60

At least one Atmanirbhar Ward with Zero Collection of Wet Waste by the ULB – With the active role of RWA(s) and citizens, 100% Wet Waste is Processed within the Ward only (ULB may assist with creating processing facility within the ward).

Cities are expected to **engage citizens and RWAs proactively** so that wards become self-sustainable in terms of wet waste management. **All awareness campaigns/meetings and pictures of wet waste management within the ward** to be uploaded on Swachhatam portal and associated social media channel, Swachhatam Portal and Face Book page of the ULB by **31st March 2024**. (City name and ULB Code mandatory for entries)

At least one Ward is an Atmanirbhar ward 60 marks

Mandatory conditions

100% households segregate their Wet, Dry and Hazardous Waste

100% Wet waste is processed within the Ward or RWA(s) – whichever is claimed/applicable

100% Dry Waste is sent to MRF/Processing Facilities OR recycled within the Ward/RWA(s)

Zero Non-compliance to any of the above conditions

Note:

1. List of awareness campaign, showing coverage and date of campaign to be uploaded on SBM Portal, Swachhatam Portal and ULB's Facebook page
2. Detail of RWAs/Ward Committee engaged in this exercise
3. This list will also be used for on-field validation **50% Observation** and **50% Citizens**
4. Direct observation and random interaction with citizens will be conducted to ascertain the claim.

*Ward will cover all RWAs and other colonies where RWAs are not available

6.5

Promoting youth participation – Swachh Tulip

SWM

Maximum
score: 75

The Urban Learning Internship Programme

The youth (graduates and above by qualification) can be engaged as interns by the ULBs and the State departments for supporting implementation of campaigns, citizen centric behavior change and IEC initiatives, monitoring of sanitation and waste management facilities, grievance redressal, adoption of IT solutions or other fields as defined by the ULB, falling under the mandate of the Mission.

S. No.	Population category of ULB	Criteria
1	< 50K	At least 1 intern
2	50K – 1 lakh	At least 2 interns
3	1 lakh- 3 lakh	At least 3 interns
4	3 lakh-10 lakh	At least 5 interns
5	>10 lakh	At least 7 interns

Key definitions/notes

- The Swachh TULIP initiative was launched by MoHUA in September 2022 as a key initiative for encouraging youth participation and human resource augmentation at the ULB level for programmatic interventions planned under SBM-U 2.0.
- The details on the program along with the key modalities for engaging students can be referred to using the Swachh TULIP guidelines.
- An internship will be considered valid and eligible for SS2024 assessment only if each intern is engaged for a period of minimum of 2 weeks (e.g.- for a campaign or IEC initiative). The interns can also be engaged for longer durations depending on the ULB's requirements.

6.5 Validation Methodology

- Internship offer letter issued by the ULB and accepted by students on the AICTE internship portal **before 31st March 2024.**

6.6 'Innovation & Best Practices' by ULB

Marks

75

Quality of project submitted by the ULB under 'Innovation & Best Practices' among the areas – **Solid/Liquid Waste Management, Behaviour Change, sustainable sanitation, Informal Workers** or interventions contributing to proven improvement in **air quality, water conservation, used-water treatment** and its **re-use** or **storm water management, efficient de-sludging/sewer cleaning operations etc..** All Innovations must be uploaded on Swachhatam portal by **31st December 2023**.

Cities may also refer some of the following interventions. However, Innovation areas are not limited to following interventions only -

1. Care & Support System to families/individuals affected by Covid-19
2. Sustainable Solutions
3. Public Private Partnership
4. Convergence across other flagship missions of the Government
5. IEC & Behaviour Change
6. Community Engagement
7. Sale of by-products of processing
8. Menstrual Waste Management
9. Robust faecal sludge management system
10. User friendly Community and Public Toilets
11. Gender-specific solutions – with focus on women and transgenders

6.8

Benefits to workers**SWM +
Drainage****Maximum
score: 130****Benefits extended to sanitary workers and informal waste pickers.**

S. No.	Scheme of marking	Sanitary workers	Informal waste pickers
1	PPE kits given; old non-usable kit replaced	20	20
2	Linkages established with at least three eligible Government Schemes (linkage with Health scheme and Annual health Check-up is mandatory for Sanitary workers and with Health, Insurance & Education schemes for informal waste pickers)	20	20
3	Monthly recognition of best performing workers in each Ward	10	-
4	Complete details of all sanitary workers and informal waste pickers updated in Swachhatam Portal MIS	10	10
5	Identity Card issued to informal waste pickers	-	20

6.8 Validation Methodology

- Based on details provided by the ULB in Swachhatam MIS, Sanitary workers and informal waste pickers are called to enquire about availability of PPE, recognition, integration with schemes, etc. for validation.

Key definitions/notes

- Female sanitation workers to be linked to schemes which specifically focus on women's welfare. Suggested themes that must be focused on include women's health such as Janani Shishu Suraksha Karyakaram (JSSK) focusing on the health of pregnant women and newborns and financial empowerment such as the Rashtriya Mahila Kosh. Any other state identified or sponsored schemes that focus on women's welfare may be considered for this inclusion.
- Schemes for the third gender (such as Garima Greh (in Gujarat), Sweekruti Scheme by Odisha govt) may also be considered as part of this indicators.

Key definitions/notes

- For monthly recognition of best performing workers, one Male and one Female worker to be recognized in each Ward.
- **Provision of personal protection equipment (PPE)** - including new uniform , fluorescent jacket, hand gloves, raincoats, appropriate footwear and masks, to all workers handling solid waste. New pair of gloves to be given once old pairs are unusable.
- SWM Rules 2016 mandates provision of Personal Protective Equipment(PPE) to all workers involved in handling solid waste (engaged under Jaagirdari, SHG, NGO, private Agency, regular/casual workers etc.).
- Wrong/no contact details of the worker would lead to non-compliance/non-performance.
- Informal workers to be integrated with private contractors working with ULB, entrepreneurship opportunities either through convergence or providing soft loans through NSKFDC or under any other scheme.
- Name of each scheme linkage facilitated by the ULB for each individual needs to be provided in the MIS portal.

6.9

Training/workshops/seminars/peer visits conducted by ULBs

Maximum
score: 70

S. No.	Indicator	Marks
1	Training of Sanitary workers conducted by ULB on subject related to their area of work	30
2	Workshops and/or Seminar conducted by ULB on the subject of Solid Waste Management, Used Water Management, Safaimitra Suraksha, Legacy waste remediation and other areas related to sanitation and waste management.	30
3	Peer visit conducted by ULB to learn from other cities in areas of sanitation and waste management.	20

1	Is the waste collected daily from your household?
2	Do you segregate waste (Wet & Dry) separately in your household?
3	Are the drains or nallahs in your neighbourhood visibly clean?
4	Are you aware of the RRR (Reduce, Reuse and Recycle) Center in your city?
5	Have you recently used a Community/ Public Toilet (CT/PT) in your city?
6	Are the Community/ Public Toilets in the city clean & well maintained?
7	Are you aware that you can find the nearest Community/ Public Toilet (CT/PT) on digital maps?
8	How will you rate the overall cleanliness of your neighbourhood?
9	How will you rate the overall cleanliness of your city?

8.2 A - Engagement of Local 'Brand Ambassador'

Marks

SWM + Drainage ³⁰

Engagement of Local 'Brand Ambassador' – Whether ULB has identified and made city-based artist/doctor/teacher/ religious leader/ sports person or any influential person as one of their Brand Ambassadors for SS-2024?

Cities are expected to **identify and make local influential citizens from different background as their Brand Ambassadors – including transgenders by 31st March 2024.**

Scheme of Marking

Marks - 30

Yes – City Based Brand Ambassador(s) selected performed their role

30

No

0

Mandatory Conditions:

- Cities with >10 L Population: Minimum 3 Brand Ambassadors
- Cities with 1-10 L Population: Minimum 2 Brand Ambassadors
- Cities with <1 L population : Minimum 1 Brand Ambassador

Key activities to be performed by the Brand Ambassador (Oct 2023-March 2024):

1. Monthly meeting with ULB officials to prepare monthly action plan.
2. At least two meeting with citizens covering all wards – asking for change in certain behavioral patterns of citizens
3. Lead by example e.g. practice source segregation, home-composting, using GTL, Swchhata App, giving feedback of CT/PTs , promoting 3R principles etc.

गोटा के स्वच्छता ब्रांड एम्बेसड

Note:

1. Detail of brand ambassador(s) selected to be maintained and given.
2. Brand Ambassador's work will be validated from citizens on field.

8.2 B – Recognition to Swachhata Champions

Marks **25**
SWM

Identification and recognition of 'Swachhata Champions' – Man* and Woman* driving 'Swachh Change' in the ULB – to be identified among citizens, citizen groups, ward councilors, CSR, NGOs, SHGs etc. by **31st March 2024** (To be uploaded on Swachhatam Portal and Social Media page of the ULB. (City name and ULB Code mandatory for entries). Recognition will only be given for the performance between **1st April 2023 to 31st March 2024**.

Scheme of Marking	Marks
Yes minimum 3 men and 3 women recognized	25
Yes minimum 2 men and 2 women recognized	20
Yes minimum 1 man and 1 woman recognized	15

Transgenders may also be considered

Note:

1. List of people and contact details with photos and a brief note (max 50 words) describing the work done to be uploaded on the Swachhatam Portal and ULB's Social Media page
2. These entries will also be used for on-call validation. On the basis of contact details these people will be called to understand whether the details provided is matching.

8.3 Participation of ULBs in MoHUA

SWM + Drainage

**Marks

Item	Marks
Single use plastic clean up drives conducted in the city and water bodies	50

8.5 On-site wet waste processing by non-bulk waste generators -

Awareness generation by the ULBs about on-site wet waste processing (composting/bio-methanation). This may include individual homes (not part of RWAs), commercial and other waste generators.

Marks
70
SWM

IEC campaign supported by proper handholding will help citizens to opt for on-site processing, thus taking ownership of their wet waste.

Community Composting done by groups of households at common facility shall also be considered as onsite wet waste processing along with home composting.

Proposed Advisory for technical support by the ULB for on-site waste processing, covers -

- Creation of ward-level whatsapp group – one active ULB staff should be part of this group to address the concerns, resolve issue, share his/her schedule of visits etc.
- Details of residents practicing on-site processing
- List of all facilities provided by the ULB
- At least once-in-a-month visit report by ULB staff
- To ensure suitable mechanism for provision of bio-culture/dry leaves/coco pit and other necessary equipment to facilitate home composting
- Provide composters on payment basis or set-up mart for home composting or any other

Scheme of Marking	Marks
Awareness campaign conducted	70

To be moved to Citizen Voice

8.6 Grievance redressal by Swachhata App/Local App

SWM + Drainage

What percentage of **complaints** are **resolved** within **SLA** (Service Level Agreement) time frame

Scheme of Scoring

Maximum score: 100

Percentage as calculated by the formula below will be applied on 'Maximum score' which will become the score for that month.

Final Score of this indicator for SS-2024 will be the average of every month score

Methodology: Resolution Rate

Formula would be:

$$\text{Resolution Rate} = \frac{\left(\text{Number of Complaints Resolved} - \text{Reopened Complaints} - \mathbf{2x} \text{ Fake Resolutions} \right)}{\text{Total Complaints in the city}} \times 100$$

Note: The formula would be applicable only if a city has received a number of complaints equal to 0.05% of the population in that month.

* Final Score of this indicator for Swachh Survekshan 2024 will be the average of every month score from **1st April 2023 till 31st March 2024**

8.7 Swachh Ward ranking

SWM

Marks
320

Whether SWACHH WARD ranking conducted MONTHLY – covering all hotels, schools, hospitals (Healthcare facility), RWAs/Mohallas, Government offices and market association etc. within the jurisdiction of each ward – results to be uploaded on Swachhatam Portal and social media page of the ULB and Facebook page of the ULB by 31st March 2024. (City name and ULB Code mandatory for entries). SOP for conducting SWACHH WARD ranking will be shared.

Mayor/Chairman of the City to be engaged in monitoring the Swachh Ward evaluation process. and handing over awards to Wards in different Award categories. Please refer the Swachh Ward Ranking SOP designed by MoHUA (annexed)

Scheme of Marking

Marks

Swachh Ward Ranking conducted for each month
(between April 2023 to March 2024)

320

Note:

- List of top-3 wards to be uploaded on SBM portal, Swachhatam Portal and ULBs Facebook page, photographs of the award ceremony to also be uploaded.

Independent Validation Matrix

Sampling Criteria

Independent Validation Matrix: Population wise respondents

Assessment Area	Population				
	<50 K	50 K - 1 Lakh	1-3 Lakh	3-10 Lakh	>10 Lakh
Sample respondent count (On-Call for Ph-1 & 2)	200	200	400	800	800
Sample respondent count (On-Field for Ph-3 & Ph-4)	200	200	400	800	800

Independent Validation – Impact on ‘Service Level Progress/Citizen’s Voice’ Marks claimed

- Step-1: Adjusted Marks** - % of samples failed will lead to same % of marks deducted from the marks claimed under ‘Service Level Progress’
- Step-2: Negative Marking** - On account of failure of samples from 20% onwards, further negative marking will be applied as per the following table, to calculate ‘Final Marks’

Sample Failure (%)	% of Negative Marking on Total Marks claimed, to be deducted from 'Adjusted Marks'
<20%	0%
20% - 30%	5%
31% - 40%	10%
41% - 50%	20%
51% - 60%	30%
61% - 70%	40%
71% - 80%	50%
81% - 90%	60%
91% - 100%	70%

Example - presenting 3 Scenarios:

Indicator No.	Total Marks	Marks Claimed	% of samples failed	Marks to be deducted as per Step-1	Adjusted Marks (after adjusting Step-1)	Negative Marking as per Step-2	Final Marks (after adjusting Step-2)
1.1	100	90	15%	14	77	0	77
	100	90	30%	27	63	3	60
	100	90	55%	50	41	12	28

Note: (a) 40% of the wards for on-call validation and 100% for on-field validation will be covered (where progress claimed) under citizens validation.

(b) For segregated Door to door collection indicator, negative marking will be from 10%, 20%, 25%, 30%, 40%, 50%, 60%, 70%, 80% sample failure (%)

SLP scoring methodology

Each indicator of the Service Level Progress is cross validated with the data retrieved from a combination of all or few of the following :

- **Direct Observation/On Field Assessment**
- **Citizen Validation in field**
- **On Call Citizen Validation**
- **Data from Swachhatam Portal**

Incorrect claims by ULB(s) in the SLP will invoke negative marking through **Independent Validation Matrix.**

Points to Remember

- ULBs are advised to update their MIS/City Profile on the basis of **electoral wards only – administrative wards will not be considered**. In all such cases, where electoral wards are not in place, administrative wards will be considered upon approval by MoHUA
- A **declaration** (section wise) from the **Executive Officers** confirming the monthly progress ‘claimed’ will be considered as a documentary support for **first two phases for ULBs with >1 L population**.
- The **declaration from Administrator** will be included if ULB has been dissolved and Administrator has been appointed by the State (wherever applicable).
- **Commercial area** in residential areas under ‘**Mixed-land Use**’
 - Commercial area is real estate intended for use by for-profit businesses, such as office complexes, shopping malls, service stations and restaurants.
 - Please note, number of shops (floor wise or in a row and either side or only one side of the road), as per following criteria, **in residential area shall be qualified as commercial area**

ULB's Population Category	Up to 25K	Between 25K - 50K	Between 50K - 1 Lakh	Between 1 Lakh – 3 Lakh	Above 3 Lakh
Number of Shops	10	20	50	75	100

Is there availability of twin litter bins in every 50 meters around ghat(s)/riverbanks?

Is the twin litter bin accessible to citizens?

Are there nallahs at the ghat?

Is one or more nallahs discharging waste without screens?

Is one or more nallah screens clean?

Is one or more nallah screens choked?
